

# TRADEMASTER™ TRAILER

The innovative Trademaster Trailer offers easy access to exterior and interior storage, more cargo capacity than the competition, and the reliability you expect from the industry leader. The Trademaster Trailer's flexible design makes it the perfect tool for companies of all sizes and applications including plumbers, electricians, cable installers, and other contractor services. With standard features like DuraPlate sidewalls, powder-coated compartment doors, translucent roof, and heavy-duty hardware, the Trademaster Trailer is commercial grade through & through.
